

PRODUÇÃO LABCREDE 2014

1. Honma HN, Prroud MW, Leme MST, Barbeiro AS, Saad BA, Morcillo AM, Vassalo J, Costa DB, Zambon L. EGFR activating mutations and their association with response to platinum-doublet chemotherapy in Brazilian non-small cell lung cancer patients. *Targeted Oncology* 9: 389-394, 2014.
2. Martini G, Morcillo AM, Netto AA. The LEA Grating Test in assessing detection grating acuity in normal infants less than 4 months of age. *Journal of AAPOS* 18: 563-566, 2014.
3. Gabriel GP, Chiquetto L, Morcillo AM, Ferreira MC, Bazan GM, Daolio LD, Lemos JJR, Carniel EF. Avaliação das informações das Declarações de Nascidos Vivos do Sistema de Informação sobre Nascidos Vivos (Sinasc) em Campinas, São Paulo, 2009. *Revista Paulista de Pediatria* 32: 183-188, 2014.
4. Franco CB, Ribeiro AF, Morcillo AM, Zambon MP, Almeida MB, Rozov T. Efeitos do método Pilates na força muscular e na função pulmonar de pacientes com fibrose cística. *Jornal Brasileiro de Pneumologia* 40: 521-527, 2014.
5. Gonçalves EM, Sewaybricker LE, Baptista F, Silva AM, Carvalho WR, Santos AO, de Mello MP, Lemos-Marini SH, Guerra G Jr. Performance of phalangeal quantitative ultrasound parameters in the evaluation of reduced bone mineral density assessed by DX in patients with 21 hydroxylase deficiency. *Ultrasound in Medicine & Biology* 40(7): 1414-1419, 2014.
6. Krahenbühl T, Gonçalves EM, Costa ET, Barros Filho AD. [Factors that influence bone mass of healthy children and adolescents measured by quantitative ultrasound at the hand phalanges: a systematic review.]. *Revista Paulista de Pediatria* 32(3): 266-272, 2014.

7. Bertapelli F, Martin JE, Gonçalves EM, Barbeta VJO, Guerra-Júnior G. Growth curves in Down syndrome: implications for clinical practice. *American Journal of Medical Genetics A* 164A(3): 844-847, 2014.
8. Rebocho LM, Cardadeiro G, Zymbal V, Gonçalves EM, Sardinha LB, Baptista F. Measurement properties of radial and tibial speed of sound for screening bone fragility in 10- to 12-year-old boys and girls. *Journal of Clinical Densitometry* 17(4): 528-533, 2014.
9. Faria AG, Ribeiro MA, Marson FA, Schivinski CI, Severino SD, Ribeiro JD, Barros Filho AA. Effect of exercise test on pulmonary function of obese adolescents. *Jornal de Pediatria (Rio J)* 90(3): 242-249, 2014.
10. Bertapelli F, Barros-Filho AA, Antonio MARGM, Barbeta CJO, Lemos-Marini SHV, Guerra-Junior G. Growth curves for girls with Turner syndrome. *BioMed Research International* 2014: 1-8, 2014.
11. Gobato AO, Vasques AC, Zambon MP, Barros-Filho AA, Hessel G. Metabolic syndrome and insulin resistance in obese adolescents. *Revista Paulista de Pediatria* 32: 55-59, 2014.
12. Freitas RGBON, Nogueira RJN, Antonio MARGM, Barros-Filho AA, Hessel G. Selenium deficiency and the effects of supplementation on preterm infants. *Revista Paulista de Pediatria* 32: 126-135, 2014.
13. Faria AG, Ribeiro MAGO, Marson FAL, Schivinski CIS, Severino SD, Ribeiro JD, Barros-Filho AA. [Effect of exercise test on pulmonary function of obese adolescents]. *Jornal de Pediatria (Rio J.)* 90: 242-249, 2014.
14. Wolf MR, Barros-Filho AA. Estado nutricional dos beneficiários do Programa Bolsa Família no Brasil - uma revisão sistemática. *Ciência e Saúde Coletiva* 19: 1331-1338, 2014.

15. Gobato V, Zambon MP, Barros-Filho AA, Hessel G. Síndrome metabólica e resistência à insulina em adolescentes obesos. *Revista Paulista de Pediatria* 32: 55-62, 2014.
16. Fabbri HC, de Andrade JG, Soardi FC, de Calais FL, Petroli RJ, Maciel-Guerra AT, Guerra-Júnior G, de Mello MP. The novel p.Cys65Tyr mutation in NR5A1 gene in three 46,XY siblings with normal testosterone levels and their mother with primary ovarian insufficiency. *BMC Medical Genetics* 15:7, 2014.
17. Sewaybricker LE, Guaragna-Filho G, Paula GB, Andrade JG, Tincani BJ, D'Souza-Li L, Lemos-Marini SH, Maciel-Guerra AT, Guerra-Júnior G. Prader-Willi syndrome: a case report with atypical developmental features. *Journal of Pediatric Endocrinology and Metabolism* 27(9-10): 983-988, 2014.
18. de Paulo J, de Andrade JG, dos Santos AP, Gil-da-Silva-Lopes VL, Guerra-Júnior G, Maciel-Guerra AT. [The use of FISH on buccal smear to investigate mosaicism with a 45,X cell line: study on healthy men and patients with disorders of sex development]. *Arquivos Brasileiros de Endocrinologia e Metabologia* 58(4): 328-334, 2014.
19. Santos MG, Machado AZ, Martins CN, Domenice S, Costa EM, Nishi MY, Ferraz-de-Souza B, Jorge SA, Pereira CA, Soardi FC, de Mello MP, Maciel-Guerra AT, Guerra-Junior G, Mendonca BB. Homozygous inactivating mutation in NANOS3 in two sisters with primary ovarian insufficiency. *Biomed Research International* 2014:787465, 2014.
20. Camargo CT, Gomez-Campos RA, Cossio-Bolaños MA, Barbeta VJ, Arruda M, Guerra-Junior G. Growth and body composition in Brazilian female rhythmic gymnastics athletes. *Journal of Sports Science* 32(19): 1790-1796, 2014.
21. Braz AF, Costalonga EF, Trarbach EB, Scalco RC, Malaquias AC, Guerra-Junior G, Antonini SR, Mendonca BB, Arnhold IJ, Jorge AA. Genetic predictors of long-

term response to growth hormone (GH) therapy in children with GH deficiency and Turner syndrome: the influence of a SOCS2 polymorphism. *Journal of Clinical Endocrinology and Metabolism* 99(9):E1808-1813, 2014.

22. Macedo DB, Abreu AP, Reis AC, Montenegro LR, Dauber A, Beneduzzi D, Cukier P, Silveira LF, Teles MG, Carroll RS, Guerra-Junior G, Guaragna-Filho G, Gucev Z, Arnhold IJ, de Castro M, Moreira AC, Martinelli CE Jr, Hirschhorn JN, Mendonca BB, Brito VN, Antonini SR, Kaiser UB, Latronico AC. Central precocious puberty that appears to be sporadic caused by paternally inherited mutations in the imprinted gene *makorin ring finger 3*. *Journal of Clinical Endocrinology and Metabolism* 99(6):E1097-1103, 2014.

23. Andrade JGR, Marques-de-Faria AP, Fabbri HC, de Mello MP, Guerra-Júnior G, Maciel-Guerra AT. Long-term follow-up of patients with 46,xy partial gonadal dysgenesis reared as males. *International Journal of Endocrinology* 2014: 480724, 2014.

Financiamentos:

CNPq – R\$ 20.000,00 (Ezequiel Moreira Gonçalves)

CNPq – R\$ 100.000,00 (Gil Guerra-Junior)

Fapesp – R\$ 123.640,00 (Gil Guerra-Junior)

Fapesp – R\$ 101.655,20 + US\$ 35.120,00 (Gil Guerra-Junior)

Faepex – R\$ 8.000,00 (Gil Guerra-Junior)

Bolsas:

Iniciação científica: 2 Fapesp, 3 PIBIC-CNPq

Mestrado: 4 Capes

Doutorado: 5 Capes, 1 CNPq

Pós-Doutorado: 1 Fapesp
