

PRODUÇÃO LABCRED 2015

1. Farias ED, Gonçalves EM, Morcillo AM, Guerra-Júnior G, Amancio OM. Effects of Programmed Physical Activity on Body Composition in Post-Pubertal Schoolchildren. *J Pediatr (Rio J)* 91(2):122-9, 2015.
2. Machado JF, Oya V, Coy CSR, Morcillo AM, Severino SD, Wu C, Sgarbieri VC, Vilela MM. Whey and soy protein supplements changes body composition in patients with Crohn's disease undergoing azathioprine and anti-tnf-alpha therapy. *Nutr Hosp* 31(4):1603-10, 2015.
3. Gonçalves EM, Ribeiro RR, Carvalho WRG, Moraes AM, Santos KD, Roman EP, Medaets PAR, Veiga-Junior N, Coelho ACLM, Krahenbühl T, Sewaybricker LE, Barros-Filho AA, Morcillo AM, Guerra-Junior G. Brazilian pediatric reference data for quantitative ultrasound of falanges according to gender, age, height and weight. *PLOS ONE* 10(6):e0127294, 2015.
4. Gonçalves EM, Matias CN, Santos DA, Sardinha LB, Silva AM. Assessment of total body water and its compartments in elite judo athletes: comparison of bioelectrical impedance spectroscopy with dilution techniques. *J Sports Sci* 33(6):634-40, 2015.
5. Esquiaveto-Aun AM, Zantut-Wittmann DE, Petrolí RJ, Nakano BS, Guerra-Júnior G, de Lemos-Marini SH, de Mello MP. Two Novel Mutations in the Thyroid Hormone Receptor β in Patients with Resistance to Thyroid Hormone (RTH β): Clinical, Biochemical, and Molecular Data. *Horm Metab Res* 2015.
6. Paula GB, Ribeiro Andrade JG, Guaragna-Filho G, Sewaybricker LE, Miranda ML, Maciel-Guerra AT, Guerra-Júnior G. Ovotesticular disorder of sex development with unusual karyotype: patient report. *J Pediatr Endocrinol Metab* 28(5-6):677-80, 2015.

7. Oliveira Mde S, de Paiva-E-Silva RB, Guerra-Junior G, Maciel-Guerra AT. Parents' experiences of having a baby with ambiguous genitalia. *J Pediatr Endocrinol Metab* 28(7-8):833-8, 2015.
8. Liberatore-Junior RDR, Ramos PM, Guerra-Junior G, Manna TD, Silva IN, Martinelli-Junior CE. Clinical and molecular data from 61 Brazilian cases of Congenital Hyperinsulinemic Hypoglycemia. *Diabetol Metab Syndr* 7:5-11, 2015.
9. Siviero-Miachon AA, Spinola-Castro AM, Lee MLM, Monteiro CMC, Carvalho ACC, Calixto AR, Geloneze B, Guerra-Junior G. Subcutaneous adipose tissue plays a beneficial effect on subclinical atherosclerosis in young survivors of acute lymphocytic leukemia. *Vascular Health and Risk Management* 11:479-485, 2015.
10. Guaragna MS, Cleto TL, Souza ML, Lutaif AC, de Castro LC, Penido MG, Maciel-Guerra AT, Belangero VM, Guerra-Junior G, De Mello MP. NPHS1 gene mutations confirm congenital nephrotic syndrome in four Brazilian cases: a novel mutation is described. *Nephrology (Carlton)* 2015.
11. Guaragna MS, Lutaif AC, Piveta CS, Souza ML, de Souza SR, Henriques TB, Maciel-Guerra AT, Belangero VM, Guerra-Junior G, De Mello MP. NPHS2 mutations account for only 15% of nephrotic syndrome cases. *BMC Med Genet* 16:88, 2015.
12. Brasileiro LF, Dias Pereira LA, Miranda ML, de Freitas LL, Marques-de-Faria AP, Maciel-Guerra AT, Guerra-Junior G. Lipomatous nevus and urethral caruncle mistaken for ambiguous genitalia in a female infant. *J Pediatr Endocrinol Metab* 2015.
13. Siviero-Miachon AA, Spinola-Castro AM, de Martino Lee ML, Calixto AR, Geloneze B, Lazaretti-Castro M, Guerra-Junior G. Visfatin is a positive

predictor of bone mineral density in young survivors of acute lymphocytic leukemia. J Bone Miner Metab 2015.

14. Dos Santos Júnior A, Henriques TB, de Mello MP, Neto AP, Paes LA, Torre OH, Sewaybricker LE, Fontana TS, Celeri EH, Júnior GG, Dalgalarrrondo P. Hyperprolactinemia in Children and Adolescents with Use of Risperidone: Clinical and Molecular Genetics Aspects. J Child Adolesc Psychopharmacol 25(10):738-48, 2015.

15. Esquiaveto-Aun AM, De Mello MP, Paulino MF, Minicucci WJ, Guerra-Júnior G, De Lemos-Marini SH. A new compound heterozygosis for inactivating mutations in the glucokinase gene as cause of permanent neonatal diabetes mellitus (PNDM) in double-first cousins. Diabetol Metab Syndr 2015.

Financiamentos:

CNPq – R\$ 20.000,00 (Ezequiel Moreira Gonçalves)

CNPq – R\$ 100.000,00 (Gil Guerra-Junior)

Fapesp – R\$ 123.640,00 (Gil Guerra-Junior)

Fapesp – R\$ 101.655,20 + US\$ 35.120,00 (Gil Guerra-Junior)

Faepex – R\$ 8.000,00 (Gil Guerra-Junior)

Bolsas:

Iniciação científica: 2 Fapesp, 3 PIBIC-CNPq

Mestrado: 4 Capes

Doutorado: 5 Capes, 1 CNPq

Pós-Doutorado: 1 Fapesp
